Microsoft Azure

DEPEND ON COMMVAULT'S EXTENSIVE SAP HANA ON AZURE EXPERIENCE.

Commvault Complete™ Data Protection is Microsoft tested and endorsed for SAP on Azure, ensuring proper integration and high performance. Commvault is SAP-certified and Azure-certified.

Together with Microsoft, we've written the definitive white paper. **CLICK HERE** to read *"SAP HANA on Azure with Commvault"*

30-50% ANNUAL SAVINGS

A rapid migration of existing SAP applications to Microsoft Azure can lower infrastructure costs by 30-50%.

-WHY NOW IS THE RIGHT TIME FOR SAP ON MICROSOFT AZURE Accenture, 2019

RANSOMWARE PROTECTION

AI-driven threat detection.
Automatically detects and isolates malicious attacks before posing real threats to your SAP HANA data.

RECOVER IN MINUTES, NOT HOURS

We have your RPOs/RTOs covered.
Regardless of the size of SAP HANA database, Commvault delivers the rapid recovery you need.

Here's how Commvault, in close partnership with Microsoft, delivers what you need to confidently move and protect your SAP HANA workloads on Azure:

AUTOMATED SAP COPY DATA MANAGEMENT

1-click SAP system refreshes.
Advanced integration with SAP's LaMa tool enables 1-click SAP system refreshes reducing time from days to hours.

REDUCE RISK AND COST

Automation & orchestration simplify operations. Our automated, AI-enhanced data management software removes manual tasks of routine SAP HANA operations, lowering costs and reducing overall risk. Potential for human error is removed.

"Emirates Steel's digitalization efforts include moving its SAP sales, manufacturing, finance and CRM modules to the cloud and adopting SAP HANA. Commvault gives us confidence that we can recover rapidly from any scenario, including potential ransomware attacks."

Mohammed Azam, IT Infrastructure Head | Emirates Steel
