

IS YOUR OFFICE 365 DATA READY? ARE YOU?

Your move to Office 365 is underway. You need to be ready. Knowing you can find and optimize all your Exchange & Office 365 data when you need it is essential. **Be ready with Commvault.**

PROTECT YOUR DATA

Satisfy your need for long-term retention of your data across Office 365 and Exchange, including SharePoint, OneDrive and Microsoft Teams—all your data, wherever it resides.

MIGRATE YOUR DATA

Save migration time with proven workflow support. Reduce the amount of data migrated to Office 365. Migrate only active mailboxes & data. Archive the rest and retrieve it when you need it.

FIND YOUR DATA

Meet your data governance, compliance, legal & eDiscovery requirements with industry leading, comprehensive search. Powered by Commvault's exclusive 4-D indexing.

IS A SAAS OPTION RIGHT FOR YOU?

Metallic brings you Commvault's powerful, enterprise-grade backup and recovery technology through simple SaaS delivery.
